In GoLiath Returns,Knight Rider 1984 who plays Halverston

There is no character named "Halverston" listed in the cast or credits for the "Goliath Returns" episode of Knight Rider (1984). The main guest characters in this two-part episode include Dr. Klaus Bergstrom (played by Peter Mark Richman), Christina (Suzanne Barnes), Adrianne St. Clair (Ann Turkel), Kathy Cunningham (Cyndi James-Reese), and several technicians and minor roles, but no one by the name of Halverston appears in the official cast lists or episode summaries[1][2][3].

If you are referring to a minor or background character, or if the name is misspelled, please provide additional details. Otherwise, based on all available official sources and episode credits, there is no actor credited as playing "Halverston" in "Goliath Returns" from Knight Rider (1984)[1][2][3].

⁂

Who played the person that drove Goliath to breach garthe Knight out of prison?

In the "Goliath Returns" episode of Knight Rider (1984), the person who drove Goliath to breach the prison and free Garthe Knight is not specifically named in the cast lists or credited as a distinct character. The plot centers on Adrienne St. Clair, who rebuilds Goliath and orchestrates Garthe Knight's escape, but the actual driver of Goliath during the prison break is not highlighted as a major character.

The primary cast for this episode includes:

- David Hasselhoff as Michael Knight / Garthe Knight
- Ann Turkel as Adrienne St. Clair
- John M. Banach as Technician #1
- Chris Capen as Technician #2

Based on available official sources and episode credits, the only characters who would logically be involved in operating Goliath are the technicians, played by John M. Banach and Chris Capen. However, the show does not explicitly identify either technician as the driver during the prison breach sequence. The focus is on Adrienne St. Clair's plan and Garthe Knight's escape, with the driver remaining an unnamed or background character[4][5][6][7].

If you are seeking the actor for the specific role of the Goliath driver during the prison break, the episode does not provide a named or credited actor for this role. The technicians are the closest credited roles associated with Goliath's operation.

⁂

What it Adrienne?

Adrienne in "Knight Rider: Goliath Returns" is the main antagonist who masterminds the rebuilding of the armored truck **Goliath** and orchestrates the prison break for Garthe Knight. She is portrayed by **Ann Turkel** and is credited in the episode as **Adrienne St. Clair**. However, according to Knight Rider canon, this character is actually the same as **Adrianne Margeaux** from an earlier episode, despite the different on-screen name[8][9][10].

Adrienne's role in the episode is central: she not only reconstructs Goliath but also devises a plan to kidnap Devon and April to lure Michael Knight and KITT into a trap. Her ultimate goal is to install KITT’s CPU into Goliath, aiming to create an even more formidable weapon, while Garthe is focused on seeking revenge against Michael[9][11][12].

⁂

Did ADRIENNE DRIVE GOLIATH TO BREAK GARTHE Knight out of prison?

Adrienne orchestrated the plan and **rebuilt Goliath**, but she did **not personally drive Goliath to break Garthe Knight out of prison**. The episode and supporting materials consistently state that Adrienne (also known as Adrianne Margeaux) financed and

directed the project, sending Goliath to free Garthe, but do not show or mention her as the driver during the prison break sequence[13][14][15][16]. The actual driving is attributed to the operation of Goliath itself, likely by one of her technicians or as an autonomous action, but Adrienne was not behind the wheel.

⁂

Is the person that drove GoLiath to break Garthe out of prison a male or female?

The person who drove **Goliath** to break **Garthe Knight** out of prison is depicted as a **male**. While the episode focuses on Adrienne St. Clair orchestrating the plan, the actual driving is carried out by one of her male technicians or henchmen. The show does not feature Adrienne herself (a female) as the driver, and the credited technicians involved in Goliath's operation are male[21][22]. Additionally, production notes mention that the windshield was deliberately obscured in the scene to conceal the driver, but all available information and casting indicate the driver is male[22].
